

Abhijeet Kumar

Full Stack Software Developer (Laravel | Next.js | React | REST APIs)

Full Stack Software Developer with 2+ years of experience building scalable ERP, B2B, and B2C web applications using Laravel and Next.js. Skilled in REST API development, SEO optimization, and performance-focused UI development.

Software Developer

Total Holiday Options | Travel & Tourism ERP Solutions
New Delhi, India | Apr 2023 – Present

- Developed and optimized a multi-regional Travel ERP used across India, Sri Lanka, Australia, New Zealand, Maldives, and Nepal.
- Built and maintained Laravel-based REST APIs for web and mobile applications.
- Developed hotel, activity, transport provider, and accounting modules within the ERP system.
- Engineered PDF and Word document generation using a single-source HTML template.
- Implemented image upload and cropping functionality and improved Admin Panel UI.
- Built inquiry management systems to streamline the lead-to-booking process.

Selected Projects (Total Holiday Options)

Dynamic Quote & Tour Management System

Tech Stack: Laravel, jQuery, MySQL, Bootstrap

- Built a component-based quotation and itinerary builder.
- Implemented real-time pricing and itinerary synchronization.
- Optimized backend logic for fast tour costing calculations.

India DMC (Destination Management Company) Platform

Tech Stack: Next.js, Laravel, REST APIs, Bootstrap

- Developed a headless B2B platform using Next.js frontend and Laravel CMS.
- Built APIs for dynamic menus, tour listings, and contact form automation.
- Optimized the platform for multi-country SEO (India & Sri Lanka).
- <https://www.totalindiadmc.com>

Tailor-Made India (B2C Travel Platform)

Tech Stack: Next.js, Laravel, jQuery, Tailwind, Bootstrap

- Built a personalized travel planning platform from scratch.
- Developed real-time costing UI for custom tour pricing.
- Integrated lead management APIs to capture detailed customer preferences.

Freelancer & Project Based Work

EventBano – B2C Event Website

Tech Stack: Laravel, MySQL, Bootstrap, Hostinger

- Built a professional B2C website using Laravel.
- Developed authentication APIs using Node.js and JWT.
- Implemented file upload APIs integrated with Cloudinary.
- Improved SEO and performance for better online visibility.
